

**PROPRIETARY CERTIFICATE**

**Mepilex<sup>®</sup>/Mepilex<sup>®</sup> Heel  
Soft Silicone Foam Dressing<sup>1</sup>**

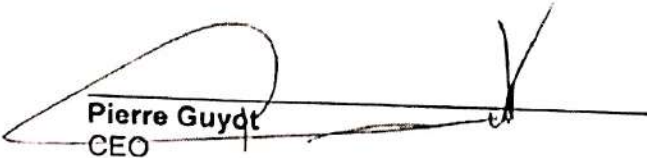

This is to certify that Mepilex<sup>®</sup> is a proprietary product, marketed exclusively by Mölnlycke Health Care worldwide. Patents: EP 855 921 / US 6,051,747 / EP 865 781 / US 6,040,492

Mepilex<sup>®</sup> is a highly conformable dressing that absorbs exudate and maintains a moist wound environment. It is designed for a wide range of exuding wounds such as leg and foot ulcers, pressure ulcers and traumatic wounds, e.g. skin tears and secondary healing wounds.

Mepilex<sup>®</sup> can be cut to suit various wound shapes and locations.

It consists of a flexible, absorbent polyurethane foam pad coated with a Safetac<sup>®</sup> soft silicone wound contact layer and a wrinkled moisture vapour-permeable and waterproof polyurethane film backing.

Safetac<sup>®</sup> is a patented soft silicone adhesive technology. Dressings with Safetac<sup>®</sup> are atraumatic both during use and at removal and thus minimise trauma to the wound and surrounding skin and reduce pain for the patient. The soft silicone layer adheres gently to dry peri-wound skin, but not to a moist wound surface. The soft silicone layer is covered with a polyethylene release film.

Pierre Guydt  
CEO

<sup>1</sup> The Mölnlycke Health Care, Mepilex and Safetac names and respective logos are registered globally to one or more of the Mölnlycke Health Care Group of Companies.
